15 October 1948

Headquarters, 7821st Composite Group, APO 407

Date Visited: 19-20 August 1948

GENERAL

1. This party asked Captain Waldman of the Composite Group if they were going to return the documents borrowed from GMDS in July 1946. He said that these documents were in constant use and that the loss of them would adversely affect the work of the group. He further stated that if these documents are urgently needed in Washington, microfilms could be made and forwarded. This party then requested that specific items be microfilmed and sent to GMDS. In addition, it was promised that a microfilmed accession list of all captured and current documents which this group has acquired independently will be sent to GMDS in the near future.

2. Captain Waldman expressed strong interest in the ICF and IC cards. On the grounds that this material would furnish excellent source and reference material for members of his group, he requested a set of each.

RECOMMENDATIONS

3. It is recommended that the Composite Group be furnished with one set each of ICF and IC cards. In addition, future distribution of IC and ICF cards should be increased to include this group.

JCS review(s) completed.
